1. Media Accreditation.

The deadline for applying for a media accreditation badge is Friday 24 November 2006. As security will be very strict, advance accreditation for media representatives is highly advisable and will require the completed form to be submitted with a digital photograph of the applicant by e-mail.

Full details of accreditation procedures and information on accommodation, visa formalities and press facilities are available on the OSCE Ministerial Council website http://www.osce.org/conferences/mc_2006.html

Please note that journalists accredited to the OSCE in Vienna or in any other OSCE locations still need special accreditation for the Ministerial Council.

Media representatives are expected to collect their OSCE Ministerial Council accreditation badges in person by presenting a valid passport, either:

Monday 4 December 2006 (06.30-20.00)

2. The Press Centre

The Press Centre at the Brussels Exhibition Centre (Heysel/Heizel) is located in Hall 11. Access to the Press Centre will be via Parking E-Esplanade (Entrance D1).

Monday 4 December 2006, from 06.30 – 23.00 continuously

Tuesday 5 December 2006, from 06.30 – 17.00 continuously

The Brussels Exhibition Centre offers all the facilities required for media coverage of the 14th OSCE Ministerial Council. Media representatives will be provided with a working area as well as 20 separate offices for radio, TV and news agencies (cubicles which must be reserved on a first-come, first-served basis), an IT support Desk and lockers.

The media working area at the Brussels Exhibition Centre comprises 50 desktop computers, 150 laptop computer outlets, a wireless zone, printing, copying and other facilities. Telephone, fax services and high speed Internet access will be provided at all times free of charge.

Since space inside the Brussels Exhibition Centre is limited and restricted, media access to certain events will be arranged on a pool basis. In order to respect the timing of the Ministerial Council and to offer the better work conditions possible to the press, media will have the possibility to subscribe for one or more pools in advance. This will confine access to media in possession of both a pool card for that specific event and their OSCE Ministerial Council media accreditation badge. Each pool card is valid for one person only and for one event.

More information on the Media programme and on the subscription for the pools (for photographers and TV only) will be sent to the accredited journalists and will be made available on the 14th OSCE Ministerial Council web site (section Media Info). http://www.osce.org/conferences/mc_2006.html

Throughout the conference, a Closed Circuit TV network will broadcast the plenary sessions in the Press Centre and information will also be disseminated to the media via CCTV. Other TV monitors, showing various news channels and networks, will also be available.

In addition, a website for the 14th OSCE Ministerial Council will be regularly updated with incoming information about the Ministerial Council. http://www.osce.org/conferences/mc_2006.html

3. Host-broadcaster

RTBF (Radio-télévision belge de la Communauté française de Belgique/Radio-television of the Belgian French-speaking community) will act as Host-broadcaster and provide technical support for radio and television networks requesting it.

A technical note detailing the media facilities, workspace, parking and technical requirements for radio and televisions offered by the host-broadcaster during the 14th OSCE Ministerial Council is available on the site http://www.osce.org/conferences/mc_2006.html?page=20168
